EPA NZ3000 HIGH COUNTRY™ SERIES

The ultra high efficiencies
allow for easily sustained
overnight burns.

EPA NZ3000 Wood Burning Fireplace

WOLF STEEL LTD., Barrie ON

Napoleon's new EPA NZ3000 wood burning fireplace is the newest edition to the powerful High Country™ Series. The EPA NZ3000 offers the same superior construction as Napoleon's NZ6000, but in a mid-sized firebox with advanced EPA technology. The ultra high efficiencies allow for easily sustained overnight burns. Only Napoleon® offers wood burning fireplaces built to these high quality standards.

- Rugged, heavy steel firebox construction
- Fully lined refractory firebox with stainless steel secondary air chamber, completing the combustion process
- Indoor or outdoor combustion air with 1% to 100% mixing control
- Napoleon's advanced EPA wood burning technology allows long, overnight burns
- Super low burn rate feature for extended overnight burns
- Heat radiating ceramic glass
- Andirons come standard with the unit
- Easy slide air control lever
- Optional powerful remote blower offers superior heat output
- Optional central heating system comes complete with blower, clamps, bracket, automatic damper assembly, wall mounting bracket for variable speed switch, and 120 volt wall thermostat
- Safety door switch, super low burn override switch and heat activated thermal switch for optional blower are pre-installed
- 7" flue chimney allows economical installation
- Hand-crafted wrought iron faceplate with keystone and arched double door kit available
- Optional painted black arched screen kit allows you to enjoy an open fire atmosphere
- Two piece removable baffle for easy access for chimney cleaning and maintenance
- Steel template is included with the unit to ensure proper fit for facing material
- Convenient lift handles make it easy to transport the unit
- Unit will fit through a standard 30" doorway
